How much do you know

About

HORSES?

Take this quiz to find out!

Cover up the gray answer box to lessen your temptation to cheat!

THE LONGEST JUMP:

It was in South Africa in 1975. A horse called "Something" jumped an amazing 27 feet 6.75 inches over water. "Something" was ridden by Andre Ferreira. That must have felt like riding a pegasus! Imagine!!!

HORSE PLAY JOKE:

10. From which side, should you mount your horse?

- | | | |
|---------|----------|---------|
| A. Left | B. Right | C. Rear |
|---------|----------|---------|

Horse Genius or Horse Hopeless

Check your answers here!

1. Rarely- Horses spend most of their time sleeping standing up, but sometimes if a horse feels safe enough it will lie down.
2. Horse Shoer- A farrier is a person who shoes and trims horses' feet.
3. Tall vs. Short- A horse is over 14.2 hands, a pony is 14.2 hands and under.
4. No- Fallabellas from Argentina are actually the smallest breed of horse.
5. Rarely- Horses have a great homing sense. They can find their way back home from very long distances.
6. 20-25-years- I've known horses that lived longer and shorter than this amount, but this seems to be the average lifespan of a horse.
7. White mark on nose- Snip and other face markings are used to identify and distinguish a specific horse from other horses.
8. Horse that doesn't have a lot of experience with humans- A "green" horse has not been broken or ridden for very long.
9. Always- Horses hooves are always growing, just like your fingernails. Therefore, horses always need to have their feet and shoes worked on.
10. Left- This is just the way it is, perhaps one of you out there knows more information about why.
